SUMMARY

A highly motivated and dedicated web developer with administrative experience seeking a position to utilize my technical skills and creativity in the development of websites and web applications. Proficient in HTML, CSS, Python, JavaScript and other various web technologies. Possesses excellent problem-solving skills and is eager to learn new technologies and programming languages.

SKILLS

- HTML
- CSS
- JavaScript
- Python
- React
- Bootstrap
- API
- Responsive Design
- UI/UX
- Git, Github
- Figma
- Photoshop
- Visual Studio Code

PROJECTS

1. Personal Portfolio Website – Built a personal portfolio website showcasing my skills and projects. The website was built using HTML, CSS, and JavaScript and includes sections such as About Me, Skills, Portfolio, and Contact.

2. Chamber of Commerce Website – Utilized my design and web development skills to redesign a local chamber of commerce website, resulting in a more user-friendly and informative experience.

3. Film Finder App – Created the Film Finder web application using HTTP request, asynchronous JavaScript, and API integration to build a movie directory app that recommends random movies by genre.
